

CURRENT POSITION

Working Professional with foundational skills in **Design** and **Web Development**. Employed, seeking a career transition into a new role.

TARGET GOAL

Land a job as a **Frontend Developer / UI-UX Designer (Hybrid Design-Engineer role)** within **6 months**, leveraging existing design + dev foundation.

SKILL GAP ANALYSIS

Skill Area	Current Level	Target Level	Gap to Close
UI/UX Design (Figma)	Basic	Job-Ready	Component systems, prototyping, usability testing
HTML/CSS/JavaScript	Working Knowledge	Strong Intermediate	Responsive layouts, modern CSS, JS fundamentals
React (or similar framework)	None/Minimal	Job-Ready	Components, state, hooks, API integration
Portfolio & Case Studies	None	3-4 strong projects	End-to-end case studies with process + code
Interview Readiness	None	Confident	Portfolio walkthroughs, technical + design rounds

RECOMMENDED LEARNING PLAN

Phase	Focus	Key Topics
Month 1-2	Design Foundations	Figma mastery, design systems, UX research basics, wireframing → high-fidelity flows
Month 2-3	Frontend Core	HTML5, CSS3 (Flexbox/Grid), JavaScript ES6+, responsive & accessible design
Month 3-4	React Development	Components, hooks, state management, REST API integration, deployment
Month 4-5	Portfolio Building	Convert case studies into live coded projects; polish UX writing
Month 5-6	Job Readiness	Resume, LinkedIn optimization, mock interviews, applications, networking

SUGGESTED PROJECTS

1. SaaS Dashboard Redesign

Full UX case study + coded React front-end of a redesigned analytics dashboard.
2. E-commerce Product Page

Responsive, accessible product page with cart flow — design file + live code.
3. Personal Portfolio Site

Custom-built (not template) React portfolio showcasing all case studies.
4. Mobile App Concept

End-to-end app design (Figma) with interactive prototype for usability testing.

NETWORKING STRATEGY

- Post weekly on LinkedIn: process, learnings, project breakdowns
- Join 2-3 design/dev communities (Designer Hangout, Frontend Mentor, ADPList)
- Get 3 mentors via ADPList for portfolio + mock interview feedback
- Engage in Twitter/X #buildingpublic and #100DaysOfCode
- Attend 1 local/virtual meetup or hackathon per month
- Warm-message 5 hiring managers/designers per week with genuine value-add

MONTHLY MILESTONES

Month	Milestone
Month 1	Complete Figma/UX fundamentals course; redesign 1 real product screen
Month 2	Finish HTML/CSS/JS fundamentals; code 2 static responsive pages
Month 3	Learn React; rebuild 1 design project as a working coded app
Month 4	Complete 2 full case studies (design + code); launch portfolio site v1
Month 5	Finalize 4-project portfolio; optimize resume & LinkedIn; start applying
Month 6	Active applications + interviews; target job offer secured

IMMEDIATE NEXT ACTIONS (THIS WEEK)

1. Create/update LinkedIn headline to reflect "Aspiring Frontend Developer & UI/UX Designer"

2. Start a free Figma UX fundamentals course today

3. Pick 1 real app/website and begin a redesign case study

4. Set up GitHub + portfolio domain (Vercel/Netlify - free)

5. Join ADPList and book first mentor session this week
